# ZÉFAL

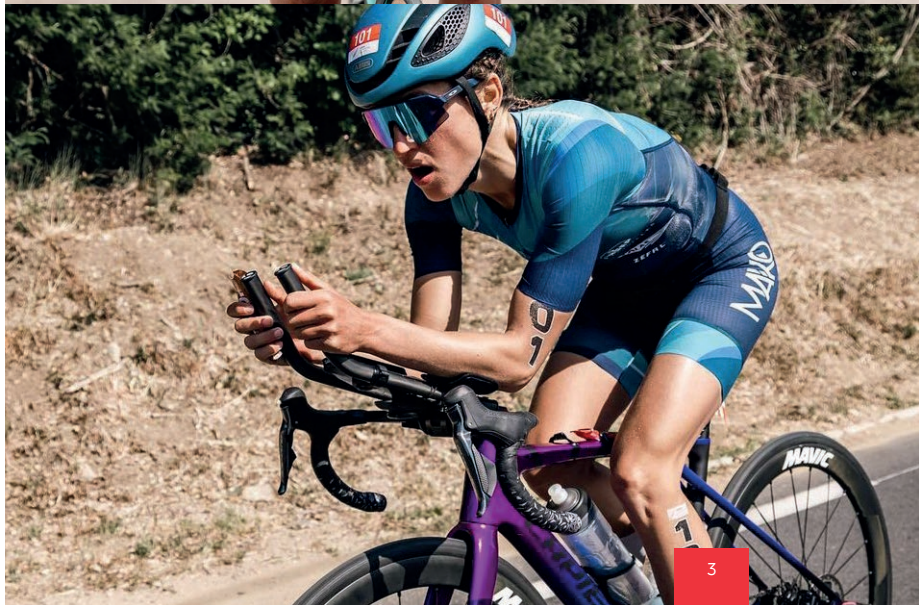

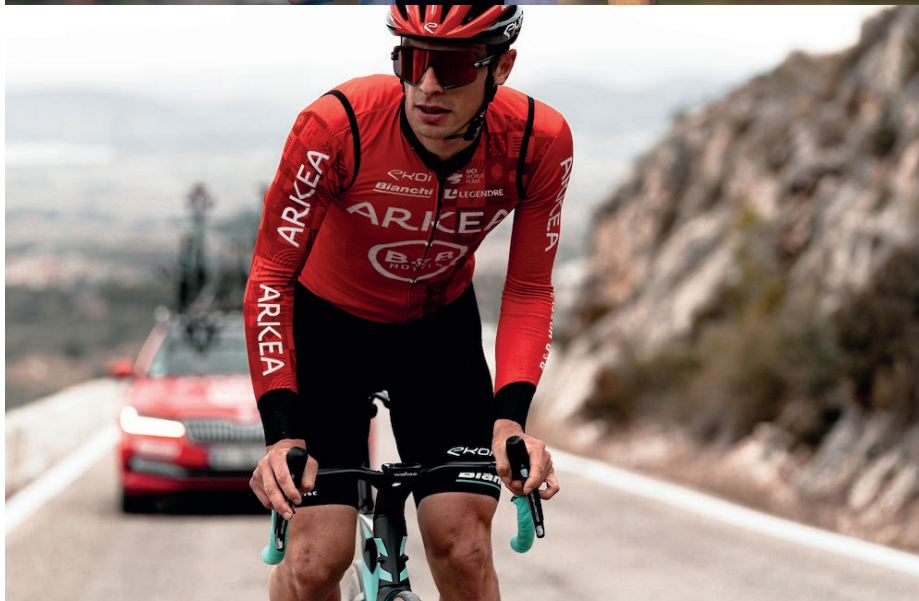

## MADE IN **FRANCE**

Developed and tested by passionate riders, our products are designed and produced largely at our factory in Jargeau, near the city of Orléans. Zéfal has become a real French cultural and industrial heritage which carry on the same philosophy of excellence for several generations.

Thanks to the proximity between the production area and the research department, the design of our products are managed and mastered from start to finish, with attention to detail. For us, this commitment translates to a guarantee of quality and promise to create accessories of excellence with a responsive customer service.

*Zéfal Team*

## //

## SPONSORING

Every year Zéfal accompanies and supports a selection of sportsmen and women during their training and competition. The main objective of a partnership for Zéfal is to be able to exchange with demanding sportsmen and mechanics in order to improve the accessories that you will use tomorrow.

By working with Lapierre Mavic Unity on World Cup races, the Poissy Triathlon team, Olympic medallists such as Léonie Périault and Dorian Coninx, and the UCI World Tour teams Arkéa-B&B Hôtels and FDJ-Suez, we can benefit from the best feedback to improve our various products, such as bottle cages, water bottles, lubricants, sealants and much more!

These trusting relationships with our partners are also based on shared values such as a passion for cycling, authenticity and determination to succeed in whatever we do.

« **DON'T JUST RIDE,  
GET NOTICED.** »

Zéfal returns to the lighting market with top-of-the-range, durable products to complete its global range of accessories for cyclists.

**Autonomy, reliability and performance** were the main components of our specifications when designing this new lighting range.

Rechargeable, adaptable to several types of supports, and waterproof to IPX6 standards, this range of 8 products sets Zéfal firmly on a new standard of quality, in line with our recent launches.

Because the **safety of the cyclist** on his playground should never be an obstacle to his practice, we have designed a **light and robust range**, for all types of use.

**Stop being viewed.  
Be supervised !**

# SUPERVISION F1500

Ref. 1015

## // 1500 LUMEN RECHARGEABLE FRONT LIGHT

NEW

The Supervision F1500 is a front light for bicycles with a very high luminosity of up to 1500 lumens.

It has been designed for demanding cyclists looking for reliability and performance. With its dual lens and wider field of vision, this light makes it possible to light the way in an unlit night-time environment. It is particularly suitable for mountain bikers and cyclists on night rides.

The Supervision F1500 is IPX6 certified, making it water and impact resistant. Its machined aluminium casing has been designed to cool more quickly. It can be mounted on either our adjustable bracket or the camera mount.

Its central button makes it easy to use, with quick access to the various setting modes, but the remote control supplied also lets you control your lighting without taking your hands off the handlebars.

Mode and battery indicators keep you informed at all times of the current mode and remaining battery life. This light has 5 operating modes: 3 steady and 2 flashing modes.

**GREAT AUTONOMY** - Up to 65 hours of operation depending on the chosen mode.

**EASY ADJUSTMENT** - Central button for easy access and remote control.

**UNIVERSAL MOUNTING** - Removable bracket for handlebar or camera mount.

**WATERPROOF** - IPX6 certified.

**RECHARGEABLE** - Recharges via USB-C port (cable not supplied).

# SUPERVISION R150

Ref. 1012

NEW

## // 150 LUMEN RECHARGEABLE REAR LIGHT

The Supervision R150 is a rear light for bicycles with a maximum light output of 150 lumens. Very powerful and with a very wide angle of vision, this light ensures optimum visibility for cyclists on the road, both at night and during the day. It's ideal for ultra-cycling enthusiasts looking for a reliable, high-performance rear light, thanks to its long battery life and high luminous intensity.

With its silicone strap and interchangeable clip, it can be fitted without tools to any part of the frame or on a bag. Its central button makes it easy to use, with quick access to the different setting modes. This light has 5 operating modes: 3 steady and 2 flashing modes.

IPX6 certified, the Supervision R150 is water-resistant, so it can continue to be used in rainy conditions. Its long battery life means you'll always be seen on your route.

Available in Supervision F200/R150 #1000 set.

**GREAT AUTONOMY** - Up to 16h of operation depending on the mode chosen.

**EASY ADJUSTMENT** - Central button for easy access.

**UNIVERSAL MOUNTING** - Silicone strap to mount on the frame or clip to mount on a bag.

**WATERPROOF** - IPX6 certification.

**RECHARGEABLE** - Recharging via USB-C port (cable not supplied).

# ESPION E100 CARGO

Ref. 4772

## // HANDLEBAR-MOUNTED MIRROR FOR LONGTAIL AND CARGO BIKES

The Espion E100 Cargo is a wide-angle, handlebar-mounted mirror specifically for Longtail and Cargo bikes. With an extra-large main mirror and a vibration-free stem, this mirror makes it easy to anticipate potential hazards coming from behind. The small additional mirror provides a clear view of the rear of the bike.

On a Longtail or Cargo bike, this means you can keep an eye on your children or any other cargo entering the blind spot of the main mirror's field of vision.

The mirrors are mounted on ball-and-socket joints for optimum, constant adjustment over time, while the pivoting arm optimises positioning. The Espion E100 Cargo is mounted on the left-hand side of the handlebars.

**NO BLIND SPOTS** - Excellent visibility thanks to its double mirror.

**EBIKE FRIENDLY** - On handlebars  $\varnothing$  22 mm to  $\varnothing$  25.4 mm.

**STABLE AND RIGID MOUNTING** - The vision remains clear on tarmac roads. Long-lasting adjustment.

**DURABILITY** - Unbreakable chrome-plated ABS mirror. Arm swivels in the event of a fall.

**PARKING MODE** - Mirror can be folded down and repositioned without adjustment.

- > **MATERIAL** Chrome plated ABS
- > **MIRROR** Convex
- > **ORIENTATION** Adjustable on mounting axis and 3D adjustable - Parking mode
- > **SIZE OF THE MIRROR** 80 cm<sup>2</sup>
- > **MOUNTING** on handlebars  $\varnothing$  22 mm to  $\varnothing$  25.4 mm
- > **DIMENSIONS** 280 x 210 x 80 mm
- > **WEIGHT** 169 g

**ESPION E80**

# K-TRAZ ZIP3

Ref. 4932

## // ZIP-TIE LOCK WITH CODE

K-Traz Zip3 is a self-locking code clamp with a steel blade that secures your bike or accessories such as a helmet or a bag. In town, it's an ideal addition to the main anti-theft device, such as a chain or U lock, to secure the bike's wheels or saddle.

Easy to store in a bag or pocket thanks to its low weight and compact size, it also helps prevent opportunistic theft during very short stops (a quick errand, a break during a ride, etc.).

**BASIC SECURITY** - Security level 3 - for areas with a very low risk of theft and short-term shutdown.

**3-DIGIT CYLINDER LOCK** - 1000 possible combinations.

**COMPACT** - Fits easily into a pocket.

**HIGH RESISTANCE** - 11 mm wide flat cable with coated steel blade for high strength.

# K-TRAZ M10

Ref. 4917

## // CHAIN LOCK

**BASIC SECURITY** - Security level 10 - For areas with a very low risk of theft.

**Z SAFE** - Powerful double locking system and high resistance against impacts and twists.

**TRANSPORT** - Wraps easily around the bike frame.

**PROTECTIVE COATING** - The chain is encased in a fabric to protect the bike's paintwork.

**2 KEYS INCLUDED** - In case of loss.

# Z HYDRO ENDURO

Ref. 7098

## // 9L HYDRATION PACK WITH 3L RESERVOIR

The Z Hydro Enduro is the ideal hydration bag for day-long rides. It features a high-performance 3-litre water bag with a wide opening for easy filling and cleaning. Its silicone bite nozzle will ensure a comfortable and safe hydration for throughout your ride. This high-capacity backpack is ideal for carrying all the gear and equipment you need for mountain biking. You can store your tools (pump, multi-tools, tyre levers, inner tubes, etc.), personal belongings (smartphone, key) or nutrition in separate pockets. You'll also enjoy the modularity of the expandable net for clothes and protective equipment, and the special helmet attachment system. Equipped with a waist belt, chest strap and 3D foam reinforcements, it adapts to most body shapes, offering perfect stability, even on the roughest terrain.

**+** **VOLUME** - 3L PEVA water bladder without Bisphenol-A, phthalates or other toxins for clean and pure water.

**RESISTANT MATERIALS** - 300D polyester fabric and ripstop.

**CAPACITY STORAGE** - Organised & modular. 1 separate pocket for water bladder + 1 main pocket with 3 mesh inner compartments + 1 padded pocket for smartphone or glasses + 1 easy-access XL zipped outside pocket + 1 external stretch net + 1 special helmet attachment system.

**COMFORTABLE** - Folder and straps in 3D foam.

**UNIVERSAL** - Adjustable chest strap, waist strap and shoulder straps to suit different body shapes for perfect fit.

- > **CAPACITY BAG** 9L with 3L water bladder

**// PROTECTION**

# DEFLECTOR FM 40

Ref. 2504

## // MTB FRONT MUDGUARD

The Deflector FM40 mudguard can be fitted to the front of a mountain bike or electric bike to effectively protect the bike and rider from water and mud splashes. The self-gripping, rubberised straps make fitting simple, effective and universal. Its elegant, discreet design blends in perfectly with the aesthetics of your bike, without compromising its stability.

The Deflector FM40 is particularly suitable for wide tyres up to 3.0". It is made from impact-resistant engineering plastic. The side deflectors offer unique protection for the fork tubes against dirt. Its length and stability mean you can ride with peace of mind, whatever your riding style and whatever the weather conditions. The mudguard can also be fixed-mounted using an adapter for forks with threaded holes in the rear of the fork bridge. Two optional models are available: the FZ01 compatible with Fox forks from 2021, Suntour, X-Fusion, Öhlins and Marzocchi (with Fox chassis), and the RZ01 for Rockshox Zeb, Domain (2021) and Lyrik, Pike (from 2023), Recon, 35 Gold and Silver.

**EFFICIENT AND DISCREET** - Effective, discreet mudguard positioned close to the wheel.

**UNIVERSAL** - With adjustable straps. Particularly suitable for wide tyres up to 3.0".

**STABLE AND ROBUST** - Thanks to its technical plastic construction and three fixing points.

**FORK PROTECTION** - Side deflectors to protect fork seals from dirt.

**BOLT-ON ADAPTER** - Fixed mounting fit to your fork by choosing the appropriate adapter.

# DEFLECTOR M65 SET

Ref. 2525

## // MTB MUDGUARD SET

The Deflector M65 is a set of front and rear mudguards for mountain bikes, suitable for use on all types of terrain or for daily commuting in town. The universal MD-Strap mounting system allows easy installation on the rear frame and front fork.

The height of the mudguards can be adjusted to position the mudguard close to the wheel, whatever the type of bike: mountain bikes with or without electric assistance, semi-rigid or full-suspension, etc. The design is suitable for tyres up to 2.6" wide, so you'll be protected from splashes of rain and mud.

- +** **UNIVERSAL** - Fits all bikes with wide tyres up to 2.6".
- QUICK MOUNTING** - Adjustable straps for mounting on frame and suspension fork.
- STABLE AND ROBUST** - Reinforced plastic design and construction.
- ADJUSTABLE** - Adjustable height for optimal protection.
- FRAME AND FORK PROTECTION** - Soft pads and silicone-coated straps to protect paintwork.

- > **MATERIAL** Polypropylene reinforced with glass fibre
- > **WHEEL DIAMETER** 26" / 27.5" / 650B / 28" / 29"

## SKIN ARMOR 3 & 15 METERS ROLL

### // INVISIBLE PROTECTION FOR BICYCLE FRAME

The Skin Armor roll is a transparent flexible polyurethane protective film specifically developed for frames and components. It protects your bike from scratches and rubbing.

The Glue Shield technology requires no liquids, so it's quick and easy to apply.

This roll format allows you to cut patches of different shapes and lengths to suit your needs, offering customised protection for your components and your bike.

The Skin Armor is resistant to water (high-pressure washing), tearing, perforation, peeling, UV rays and temperature variations. It's the ideal solution for cyclists looking for an effective, discreet solution to preserve their bike's appearance and resale value.

**HIGH RESISTANCE** - No rips. Excellent resistance to puncture and peeling.

**UV RESIST** - Does not change colour with time.

**WASHABLE** - Resistant to high-pressure water jets.

**TEMPERATURE FLUCTUATIONS RESIST** - From -30°C to +100°C / From -22°F to +212°F.

**GLUE SHIELD TECHNOLOGY** - Quick and easy dry fitting. High adhesive strength.

## Z ADVENTURE F1

Ref. 7039

### // MINIMALIST HANDLEBAR BAG

The lightweight, practical Z Adventure F1, with a capacity of 1.2 litres, is ideal for carrying all your essentials when you're out and about on your bike, while preserving its lines. This bag is roomy enough to hold a phone, wallet, keys, multitool and even a mini-pump. It has pockets and compartments for easy organisation. You won't need to overload your jersey pockets.

**COMPACT** - Adaptable to any handlebar width.

**LIGHT** - Durable and lightweight material.

**STABILITY** - Anti-rotation system.

**COLOURED LINING** - The red interior enhances contrast, making it easier to find your things.

**UNIVERSAL MOUNTING** - Using self-gripping straps.

## Z ADVENTURE F2

## Z ADVENTURE F5

Ref. 7017

### // WATERPROOF HANDLEBAR BAG WITH MEDIUM VOLUME

This universal handlebar bag is ideal for carrying light, large-sized items, such as a sleeping bag or a floor mat, in a way that evenly distributes the weight on the bicycle. With a capacity of 5 litres, this perfectly waterproof bag is easy to install and remove thanks to its hook-and-loop straps. Its compact size makes it particularly suitable for small frames. Equipped with reflective strips and an attachment loop for lights, the Z Adventure F5 can safely adapt to fit all types of handlebars.

- +** **WATERPROOF** - Heat-sealed waterproof material.
- MEDIUM CAPACITY** - Large carrying volume.
- DURABLE** - Durable material. Reinforced straps and mount.
- UNIVERSAL** - Adjustable and durable self-adhesive straps. Two mounting positions: 45 to 65mm spacing and 190 to 210mm spacing.

## Z ADVENTURE F10

Ref. 7000

# Z ADVENTURE T1

Ref. 7015

## // TOP-TUBE BAG

The Z Adventure T1 is a horizontal tube bag that lets you carry your most essential items (wallet, nutrition, phone, repairs, powerbank) on your bike. Thanks to its 100% welded construction and waterproof zip, your gear is protected from the elements while remaining quickly accessible. This universal bag can be mounted on a road, gravel or mountain bike, making it a versatile choice for all types of bike rides.

To keep your belongings organised, the bag has a key hook and an internal mesh pocket. What's more, it has an integrated cable channel in the centre of the bag, allowing you to run a USB charging cable (for a GPS or other device) while maintaining a sleek, stylish look.

With dimensions designed to maximise carrying volume while minimising the risk of touching the bag with your knees while riding, the Z Adventure T1 is the ideal choice for cyclists looking to carry their gear without compromising comfort or the handling of their bike.

- +** **CABLE ACCESS** - Allowing the rider to charge their GPS, phone, lights...
- WATERPROOF** - Welded bag and waterproof zip.
- UNIVERSAL MOUNTING** - Using self gripping straps.
- STORAGE** - Internal mesh pocket and key hook.
- LIGHTWEIGHT** - Lightweight, resistant material.

## + Z ADVENTURE T1 BOLT Ref. 7016

This «bolt on» bag is compatible with road and gravel bikes fitted with threaded holes on the top horizontal tube, as long as these holes face upwards. By eliminating the risk of abrasion from rubbing straps, this bag protects your bike's paintwork and frame. The Z Adventure T1 Bolt is easily fitted to your bike using the screws supplied.

# Z ADVENTURE C2, C3 & C4

## // WATERPROOF FRAME BAG

These waterproof (IPX4) frame bags have been designed to accompany all cycling adventurers, whether on road, gravel, mountain or touring bikes. Available in 3 sizes, the Z Adventure C2, C3 and C4 can be mounted on all bikes thanks to the removable and adjustable straps.

The volumes are sufficient to carry a jacket in addition to a repair kit, a phone, a battery, a pair of gloves... The size should be chosen according to your needs but also according to the space inside your frame.

- +** **UNIVERSAL MOUNTING** - Using self-gripping straps.
- WATERPROOF** - IPX4, welded bag with waterproof material.
- WIDE OPENING** - Better access to the content.
- STORAGE** - Inside zipped pocket.
- LIGHT** - Durable and lightweight material.

# Z ROAD PACK

Ref. 7013

NEW

## // COMPACT, ORGANISED SADDLE BAGS FOR YOUR REPAIR KIT

The Z ROAD PACK and Z OFF-ROAD PACK are designed to hold a modern bike inner tube and all the essential tools for quick repairs. It holds an inner tube, a multitool, a CO2 cartridge, an inflator and two tyre levers, all neatly organised in a space divided in two by a spacer. The interior compartments are designed to protect the inner tube from abrasion and provide easy access to tools. 100% waterproof, the contents remain protected from the elements, whatever the weather.

The bags attach easily to the underside of your bike saddle thanks to a wide hook-and-loop strap, which can be removed if you want to strap it onto another bag. They have been designed as your bike's first aid kit, to be used in the event of repairs. You won't need to access it every time you ride.

You can ride with confidence, knowing that your tools are close at hand if you need them. The ideal choice for cyclists looking to combine convenience and style on the road.

**WATERPROOF** - Welded bag and waterproof zip.

**MINIMALIST SADDLE BAG** - To carry all your repair essentials.

**UNIVERSAL MOUNTING** - Quick mounting for all standard saddle rails.

**COMPARTMENTS** - Protects the inner tube from abrasive objects in the bag.

**MEDIUM CAPACITY** - Provides enough room for 1 tube (=700x23-32) + 2 tyre levers + 1 multi-tool + 16g cartridge + a CO2 inflator as the Zéfal EZ Big Shot.

## + Z OFF-ROAD PACK

Ref. 7014

**MEDIUM CAPACITY** - Provides enough room for 1 tube (=29X1.9"-2.5") + 2 tyre levers + 1 multi-tool + 25g cartridge + a CO2 inflator as the Zéfal EZ Big Shot.

# Z TRAVELER S20 & S30

Ref. 7100 - 7101

## // BIKE PANNIERS

The Z TRAVELER S20 and Z TRAVELER S30 are a universal, waterproof bike panniers. IPX4 certified, they have been designed to accompany touring cyclists and bike commuters looking to carry large volumes.

their large 20 or 30-litre capacity and hard-wearing 600D polyester construction will give you peace of mind on your daily commute or on longer bike adventures. Functional and practical, these panniers features the universal Z Quick Mount system. It's quick to mount and remove, while the 2 lower hooks ensure stability. Its inside pocket provides quick access to essentials such as keys and wallet.

**QUICK MOUNT SYSTEM** - Panniers can be fitted and removed quickly, and double bottom hooks provide extra support.

**WATERPROOF** - The contents of the pannier stay dry thanks to IPX4 certification.

**UNIVERSAL** - Designed to fit most bike racks.

**RESISTANCE** - Its 600D polyester construction and reinforcements make it highly resistant to impact and abrasion.

**LARGE VOLUME** - For carrying clothes, hygiene products, camping gear or travel accessories.

S20

# BIKE TAXI

Ref. 7035

## // BIKE TOW ROPE

This bike tow rope has been designed to make family cycling, especially mountain biking, more fun and enjoyable for everyone. The Bike Taxi is only to be used on paths, where it is easy to take your child up climbs and thus eliminate physical differences.

The Bike Taxi is simply installed on the saddle rails of the person towing and is very quick to attach to the stem of the towed bike. Once at the top, the child can easily unhook it. The rope is made of high density polyethylene fibre, which is highly resistant to abrasion, and is self-retracting, without risk.

The Bike Taxi is suitable for all types of bicycles and the person towing can use an E-bike

- +** **UNIVERSAL** - For all standard saddle rails.
- EASY TO INSTALL** - No tools required.
- EASY TO HANDLE** - Fast attachment and detachment.
- SAFE** - High-performance reel with complete return of the wire.
- LIGHTWEIGHT AND COMPACT** - Discreet, under the saddle, for only 140 g.

# BIKE TAXI ADAPTER

Ref. 7038

## // QUILL STEM ADAPTER FOR BIKE TAXI TOW ROPE

The Bike Taxi Adapter is an accessory specially designed to enable the Bike Taxi tow rope to be used on a bike fitted with a quill stem or any other type of smooth stem with no exposed bolts.

It can be fitted quickly and easily to the handlebars of the bike to be towed, without the need for tools. Once in place, the Bike Taxi loop attaches to the adapter, allowing the rider of the towed bike to break the connection at any time. The adapter remains in place on the handlebars, while the buckle retracts automatically and safely.

- +** **UNIVERSAL** - Handlebars from 22.2 mm to 25.4 mm.
- EASY TO INSTALL** - No tools required.
- EASY TO HANDLE** - Fast attachment and detachment.
- SAFE** - The towing cable remains free.
- LIGHTWEIGHT AND COMPACT** - Discreet, under the saddle, for only 50 g.

**// INFLATION**

# ZÉFAL MT. MINI

Ref. 8470

## // MTB MINI-PUMP

The Zéfal Mt. Mini is a mini pump ideal for inflating all types of mountain bike tyres (from 2.0» to 3.0» wide and regardless of the wheel diameter, 29», 27.5» or even 26»). Mountain bike tyres require a large volume of inflation at low pressures. With an optimized inflation chamber and a direct hose connection, the Zéfal Mt. Mini has all the advantages for quickly reinflating your mountain bike after a puncture.

**ALL ALUMINIUM** - Robust and light.

**DIRECT CONNECTION WITH LEVER** - Guaranteed airtightness for easy inflation.

**FLEXIBLE CONNECTION** - Allows inflation from farther away to prevent damage to the valve stem.

**LOCK MAGNET** - Magnetic closure, quicker and easier.

## Z SHOCK

Ref. 0661

### // MTB SHOCK PUMP

- +** **PERFORMANCE AND PRECISION** - The two-step connection guarantees precise inflation without the risk of air leaks.
- ALL ALUMINIUM** - Durable, lightweight and resistant to corrosion.
- INTEGRATED PRESSURE GAUGE AND PRESSURE REGULATOR** - Accurate inflation, easy to read and to adjust.
- COMFORT** - Ergonomic handles for a good grip.
- UNIVERSAL** - System compatible with all types of shock absorbers.

## TUBELESS TANK

Ref. 4300

### // TUBELESS AIR TANK

- +** **BOOST AIR SYSTEM** - Instant inflation and rapid fit of tubeless tyre onto rim.
- VALVE TOOL SUPPLIED** - For removing Presta valves.
- DIRECT CONNECTION** - Direct connection without any loss of flow.
- AUTONOMOUS** - Does not require electricity. Environmentally friendly and silent.
- EASY TO CARRY** - Ergonomic handle.

# BIKE SHAMPOO

Ref. 9974

## // CONCENTRATED BIKE CLEANER WITH ECOCERT ECODETERGENT LABEL

**30 WASHES** - On average, 1L of product is sufficient for 10 washes.

**ECOCERT** - Certification guarantees and promotes best social and environmental practice.

**VERSATILE** - Can be used safely on all surfaces of your bike.

**SPRAYER** - Its dual position allows it to produce an active washing foam or to spray the parts to be cleaned.

**REUSABLE BOTTLE** - Made from recycled plastic, it can be reused with Bike Shampoo Refill.

## EXTRA WET LUBE

### // PREMIUM, CERAMIC-BASED LUBRICANT FOR THE CHAIN

- +** **ALL CONDITIONS** - Effective no matter what the conditions are.
- EXCEPTIONAL DURABILITY** - Effective over very long distances.
- FRICTION REDUCTION** - Smoother pedalling and a quieter drivetrain.
- HIGHLY WATER RESISTANT** - Anti-corrosive properties, prolonging the life of the componentry.
- EASY APPLICATION** - Drip-regulation safety cap.

## EXTRA DRY WAX

### // PREMIUM WAX-BASED LUBRICANT

- +** **IDEAL IN DRY WEATHER** - Outstanding durability.
- CLEAN CHAIN** - Clean lubrication with this wax.
- FRICTION REDUCTION** - Smoother pedalling and a quieter drivetrain.
- NON-OILY PROTECTIVE FILM** - Efficiently repels dust and dirt.
- EASY APPLICATION** - Drip-regulation safety cap.

## EBIKE CHAIN LUBE

### // ALL CONDITIONS LUBRICANT FOR EBIKE

- +** **SPECIAL EBIKE** - Formulated with extreme pressure additives optimised to withstand high engine torque.
- EXCEPTIONAL DURABILITY** - Effective over very long distances.
- ALL CONDITIONS** - Effective no matter what the conditions are.
- HIGH DEGREE OF ADHESION** - Penetrating. Spreads easily over all surfaces.
- EASY APPLICATION** - Drip-regulation safety cap.

## PRO WET LUBE

### // BIODEGRADABLE LUBRICANT FOR THE CHAIN

## CARBON PASTE

Ref. 9609

### // ANTI-SEIZE ASSEMBLY PASTE FOR CARBON COMPONENTS

- +** **MAKES ASSEMBLY EASIER** - The adhesive effect prevents components from being over-tightened.
- WATER RESISTANCE** - Outstanding resistance to water, salt water, mud, weathering, washing...
- ANTI-SEIZE / ANTI-COLD WELDING** - Avoids cold welding of carbon to other materials.
- PRESERVES FRICTION COMPONENTS** - Prevents cracking and therefore reduces noise.
- PLANTE BASED** - Formulated based on plant-based greases and without microplastics.

## COPPER PASTE

Ref. 9608

### // ANTI-SEIZING COPPER ASSEMBLY PASTE

- +** **HARMLESS** - Safe for plastics, carbon and rubber.

## PRO II GREASE

### // BIKE GREASE

- +** **ANTI RUST AND CORROSION** - High protection.
- WATERPROOF** - Excellent resistance to water, mud, weathering...
- STRONG ADHERENCE** - Strong adhesion power for fewer uses.

**Z LINER**

Ref. 9722 - 9721 - 9738 - 9723 - 9724

**// ANTI-PUNCTURE TAPE**

Fed up with flat tyres? The Z Liner is a protective tape made out of highly resistant polyurethane material and provides additional protection against the risk of getting a puncture. The Z Liner is positioned between the inner tube and the tyre to prevent getting a flat tyre. Various sizes are available depending on your tyre width. Sold in pairs. Ride along in peace thanks to the Z liner.

**MADE FROM POLYURETHANE** - Highly resistant to punctures.

**HIGH LEVEL OF QUALITY** - Particularly long product lifespan.

## WHY CUSTOMISE YOUR BOTTLES?

Easy to make and affordable, customized bottles can help you to promote your brand, your shop, your sports club... It could also be a great gift and souvenir for your race's attendees.

**Screen printing** is a technique whereby screens are used to transfer ink onto the bottles. This is our standard printing technique, used on all our bottles. We can print up to 4 colours and we require a minimum order of 250 identical bottles.
